DETAILED ACTION

1. The location of your application in the PTO has changed. To aid in correlating any papers for this application, all further correspondence regarding this application should be directed to Art Unit 1644, Group 1640, Technology Center 1600.
2. Claims 1-42 are pending.
3. Claims 1-42 encompass distinct antibodies that utilize different combinations of heavy and light chain CDRs amino acid sequences and there are too many groups to be listed. Therefore, the restriction has been set forth for each as a separate **group**, irrespective of the format of the claims.

Election/Restrictions

4. Restriction to one of the following inventions is required under 35 U.S.C. 121:
5. Claims 1-42, drawn to a specific purified antibody comprising a **specific combination of SEQ ID NOS for a specific variable heavy chain (VH) CDR1, a specific VH CDR2, a specific VH CDR3, a specific variable light chain (LH) CDR 1, a specific VL CDR2, and a specific VL CDR3**, classified in Class 530, subclass 387.1.
6. The inventions are distinct, each from the other because of the following reasons:

Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case, the antibodies are distinct because they differ with respect to their structures, i.e., specific variable heavy chain (VH) CDR1, VH CDR2, VH CDR3, and variable light chain (LH) CDR 1, VL CDR2, and VL CDR3 and binding specificity. Further, a prior art search also requires a literature search. It is a burden for the examiner to search more than one invention. Therefore, they are patentably distinct.
7. Because these inventions are distinct for the reasons given above and the searches are not co-extensive, restriction for examination purposes as indicated is proper.

Art Unit: 1644

8. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.
9. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).
10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Phuong Huynh "NEON" whose telephone number is (703) 308-4844. The examiner can normally be reached Monday through Friday from 8:00 am to 5:00 p.m. A message may be left on the examiner's voice mail service. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Christina Chan can be reached on (703) 308-3973. Any inquiry of a general nature or relating to the status of this application should be directed to the Technology Center 1600 receptionist whose telephone number is (703) 308-0196.
11. Papers related to this application may be submitted to Technology Center 1600 by facsimile transmission. Papers should be faxed to Technology Center 1600 via the PTO Fax Center located in Crystal Mall 1. The faxing of such papers must conform to the notice published in the Official Gazette, 1096 OG 30 (November 15, 1989). The CM1 Fax Center telephone number is (703) 305-3014.
